SAND DUNE

THERE'S NOTHING LIKE THE RIGHT
POP OF COLOR
TO GIVE YOUR HOME THAT
SIGNATURE STYLE

Create a sense of natural grandeur with this relaxed and versatile medley of coastal hues. Sand Dune combines elements of bisque beige and light sky blue with tones of driftwood, charcoal and shale to create a canvas of effortless elegance for today's exterior colors and styles. And TruDefinition® Duration® Designer Colors Collection shingles come with the advanced performance of patented SureNail® Technology—a technological breakthrough in roofing. So, sit back, relax and exhale—your Sand Dune roof can help you enjoy the view.

Before

SureNail® Technology

There's a line between a good shingle and a great shingle.™

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

Outstanding Grip
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond® sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design
Patented SureNail® Technology†† is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Excellent Adhesive Power
Helps keep the shingle layers laminated.

Triple Layer Protection*††
A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

Double the Common Bond
SureNail® features up to a 200% wider common bond area in the nailing zone over standard shingles.

For more information and to watch our videos on SureNail® Technology, go to www.owenscorning.com/surenail.

TOTAL PROTECTION **SIMPLIFIED**™

TOTAL PROTECTION ROOFING|SYSTEM®^

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning® Total Protection Roofing System®^ gives you the assurance that all of your Owens Corning roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.
